Content										
Quality of Problems Identified	All problems identified are irrelevant to the scenario or are too generic in nature.	Some problems identified are irrelevant to the scenario and/or may be too generic in nature.	Most problems identified are relevant to the scenario but some may lack significance	All problems identified are relevant to the scenario but some may lack significance	All problems identified are relevant to the scenario and all are significant.	All problems identified are relevant to the scenario and all are of exceptional significance.		X3	0	
Clarity of Problems Identified	None of the problems identified can be understood.	Most of the problems are not worded clearly and / or are not expressed in the form of statements.	Some of the problems are not worded clearly and some are not expressed in the form of statements.	Some of the problems identified lack clarity but most are expressed in the form of statements.	All problems are expressed in the form of statements but there is the occasional case that lacks clarity.	All problems identified are worded with exceptional clarity and expressed in the form of statements.		X3	0	
Quality of Research	None of the problems are substantiated with research.	Most problems are not substantiated with research.	Some problems identified are substantiated with research and sources may not be entirely credible.	Most problems identified are substantiated with research but sources may not be entirely credible.	All problems identified are substantiated with reasonably extensive and relevant credible research.	All problems identified are substantiated with exceptionally extensive and relevant credible research.		X4	0	
Creativity & Futuristic Element	None of the problems make reference to the future.	Most of the problems identified simply make reference to the future without reasonable connections to future trends drawn. All problems identified are unoriginal.	Some problems are projected into the future with connections to future trends reasonably drawn. Most problems identified are not original.	Most problems are projected into the future with connections to future trends reasonably drawn. Some problems identified are original.	All problems are projected into the future with connections to future trends reasonably drawn. Most problems identified are original	All problems are projected into the future with connections to future trends exceptionally drawn. All problems identified are highly original.		X3	0	
Crafting of Fundamental Problem	Fundamental problem selected is irrelevant to the scenario.	Fundamental problem selected lacks significance	Fundamental problem is somewhat significant only. There may be more than 1 KVP or lack a relevant P.	Fundamental problem is significant but the team has merely used one of the problems identified as the fundamental problem.	Fundamental problem is very significant and the team has demonstrated evidence of having combined key elements from at least 2 problems identified in Step 1.	Fundamental problem selected is not only exceptionally significant, but the team has also demonstrated evidence of having combined key elements from at least 3 problems identified in Step 1.		X3	0	

Oral Presentation										
Organisation of Content	Content is totally disorganised and confusing.	Content is disorganised and confusing, although there are glimpses of logic and organisation.	Content is somewhat organised, although the lack of logic creeps in sometimes.	Content is more often than not organised, and the logical flow of ideas is more often than not observed.	Content is mostly well-organised and often the logical flow of ideas is observed.	Content is always well-organised and the logical flow of ideas is always observed.				
Delivery	The team display absolutely no interest, mumble and are completely unclear, provide absolutely no eye contact / read report off notes/screen completely. Not all members have presented.	The team displays much negativity, tend to speak softly and unclearly, provide no eye contact and are almost completely reliant on notes / the screen. Not all members have presented.	The team display little enthusiasm, are often unclear in speech, provide minimal eye contact and are heavily reliant on notes / the screen. Not all members have presented.	The team display some enthusiasm, are more often than not clear in speech, provide some eye contact but still return to notes / the screen. All members must present.	The team display enthusiasm, are largely clear in speech, consistently provide eye contact but still return to notes / the screen. All members must present.	The team display strong enthusiasm, speak clearly, provide direct eye contact with the audience and seldom look at notes. All members must present.			X1	0
Audience Awareness	Completely ineffective use of visual aids. Audience is completely disengaged.	Largely ineffective use of visual aids and / or props. Audience is largely disengaged.	Somewhat effective but uncreative use of visual aids and/or props to illustrate ideas. Audience is more often than not disengaged.	Effective but uncreative use of visual aids and/or props to illustrate ideas clearly. Audience is somewhat engaged.	Effective and somewhat creative use of visual aids and/or props to illustrate ideas clearly, demonstrating audience engagement.	Creative and effective use of visual aids and/or props to illustrate ideas clearly, demonstrating exceptional audience engagement.			X1	0
Response to Questions	Totally unable / does not try to respond with relevance to any of the questions.	Tries but struggles to respond with relevance to any of the questions.	Able to respond to some of the questions. Some answers may be irrelevant or lack elaboration.	Able to respond with well-thought out answers with full and in-depth elaboration to some of the questions.	Able to respond with well-thought out answers with full and in-depth elaboration to most of the questions.	Always able to respond with well-thought out answers with full and in-depth elaboration to all of the questions.			X1	0
